STAT [redacted] DD/OP/R&D
806 Ames Building

John:

STAT [redacted] This young man was a student of Professor [redacted] suggested he contact me, which he did about a week ago. I asked him to send a resume (attached) which I received yesterday. I have sent a copy of STATie letter and resume to [redacted] EO for NESAs, and you are the only other recipient. I know there is virtually no time but I wanted you to at least have this resume of what I would regard as a very promising young man. Perhaps a letter to the Greenwich address would be forwarded and we could at least find out when he will be returning to the U.S. Alternatively, a phone call might elicit the same info.

STAT [redacted]
